

LIFTING STRAPS

A.B. Carter, Inc. offers a full-line of lifting straps for the textile industry. These straps are available in three basic types to suit the tensile strength requirements on the various textile processing machines.

Our lifting strap can be supplied in roll form (100' rolls) or with pre-cut lengths complete with fixing hardware already pre-assembled.

PRODUCT FEATURES & BENEFITS

- Longer life as composed to chain products.
- Resistant to oil and grease.
- Lubrication not required.
- Little or no elongation.
- Cost effective.
