

SPIN CLEAN

Fluff Removers

YARN INDUSTRY PRODUCTS, PARTS, ACCESSORIES

A. B. Carter, Inc. supplies a complete-line of hand operated “Spin Clean” cleaners to remove fluff and lint from textile machines in the spinning mill.

PRODUCT FEATURES & BENEFITS

- Simple lightweight design allows safe cleaning of rolls and other areas where moving parts make it unsafe for the operator to clean.
- Ruggedly constructed with precision made parts to ensure continuous long-term use.
- Unique “spinning blade” design allows fast and efficient cleaning of the machine, which reduces yarn defects caused by fly, dust and loose fibers.
- Ergonomically designed for operator convenience and safety.
